

NAVARRO TILES

ENDLESS LUXURY

BABILON

Inspired by the subtle elegance of limestone, the Babilon range brings a serene, sophisticated look to contemporary interiors. Available in two modern, minimalist tones — Bone and Artic — Babilon tiles feature soft monochromatic shading enhanced by delicate veining, creating a clean yet characterful aesthetic. The rectified matt finish gives the tiles a refined edge, ensuring tight grout lines and a seamless appearance on walls or floors.

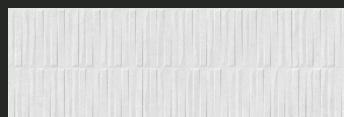

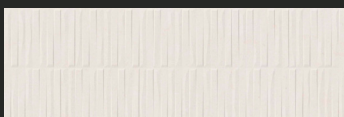

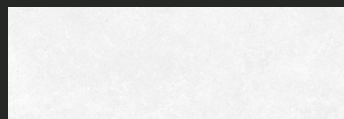

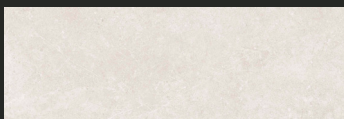

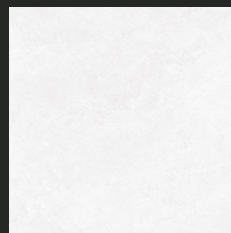

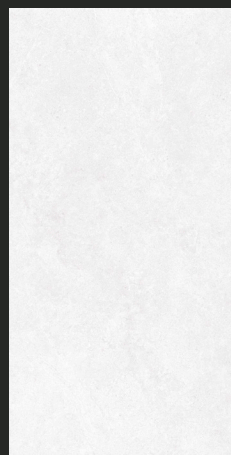

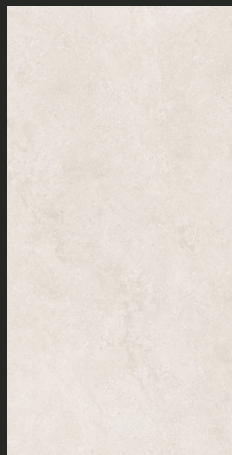

With multiple sizes to suit both residential and commercial projects, the Babilon collection allows for creative layouts and flexible applications. The 30×90 décor tiles introduce linear 3D texturing that adds architectural interest and light-play — perfect for feature walls, bathrooms, or behind vanities. Whether you're tiling an open-plan kitchen, a luxury bathroom, or a commercial entranceway, Babilon delivers both visual elegance and everyday durability.
